

Eco-Behaviors:

Being aware of the necessity to preserve our planet, we take action in favour of sustainable development with the aim to reduce the environment impact of our activity.
We suggest you to follow few eco-tips:

Water :

Water is the most precious resource, use it with moderation and consciousness. Prefer a shower over a bath.
If you stay just few days in our establishment, ask to not change your bed sheets and towels daily if not needed. In this way we can preserve water, electricity, and soap.

Energy:

Electric energy is not unlimited, remember to turn off the room's lights, The standby of the TV, the heater and the air conditioning, to unplug your chargers etc..
When you leave your room, prefer to take the stairs over the elevator.

Waste :

We invite you to join us for the wastes recycling, using the recycling bins arranged in every floor.

Environment :

During your travels respect the and preserve the nature, without disturbing and to pollute.

Transports:

For your transports, we suggest to take public transports as an alternative to the car travels.
In the brochures you will find public transport timetables.

Beausoleil BUS line – ZEST
Monaco Monte-Carlo BUS line – CAM
Line Menton -> Nice - BUS N°100
Line Menton – Nice Airport - BUS N°110

Otherwise you can use the electric bike rental service available through the app Monabike.MC

For short distances, walking is the most ecologic and enjoyable way to visit Monaco.
The cities of Monaco and Beausoleil have public elevators and stairs to help people with the less comfortable roads.

Do not hesitate to contact us for ecological actions tips.

**We wish you an excellent stay
Thank you for your time & your attention.**
